

VIY5-900

Ground Penetrating Radar

User friendly and low cost system for diverse application. VIY[®]5-900 is suitable for both simple detection of underground utilities and complex geophysical investigations.

With VIY[®]5-900, you can quickly detect position and depth of metallic and non-metallic objects:

- position and depth of reinforcement
- cracks and voids in concrete
- layers of asphalt and concrete
- metal utilities, including pipes and cables
- non-metallic pipes, including PVC and asbestos cement ones

VI45-900 GPR

Wide Operation Possibilities

- Simplified interface for basic applications
- Wide range of abilities in standard interface

Robust Compact Foldable Cart

- Lightweight design
- Folds up very quickly
- Built-in odometer
- Can be used on rough terrain
- Has a screw-bolt for GPS receiver fixing
- Simple adjustable antenna mount
- Built-in battery compartment

Sealed Lead Acid Battery

- Easy replacement
- Worldwide available battery
- Standard form factor battery

Connections

- USB connections
- Easy to use push-pull connectors
- Endurance sealed connectors
- Simple setup of WiFi
- Standard extender can be used

GPR Antenna

- Shield antenna systems
- Same antenna can be used with cart or in manually mode
- Exchangeable bottom protector
- Original "Telbin" technology
- Built-in tilt sensors
- Robust fiberglass body
- Low power consumption
- More than 8 hours of continuous operation

Any Windows Computer

- Any Windows-based computer is applicable
- The antenna directly connects to PC

Any External GPS Receiver

- GPS receiver connects directly to GPR antenna
- GPS can operate as trigger device

VIY5-900 GPR

Simplified or Advanced Interface

Arbitrary Positions of GPR Profiles in Project

Visualization of GPS Track

Depth Slices

Two Types of Markers

3D Visualization

Export to Google Earth

Automatic Topographic Correction

VIY[®]5-900 Specifications

Antenna frequency	900 MHz
Survey window	23.6, 34, 45.3, 56.6 ns
Depth of sounding up to (determined by soil properties)	2 m
Spatial resolution (better than)	0.09 m
Trigger mode	single, internal, external
Dimensions of antenna, L x W x H	305 x 210 x 95 mm
Dimensions of cart, working mode L x W x H	900 x 460 x 1050 mm
Dimensions of cart, folding mode L x W x H	900 x 460 x 300 mm
Weight of antenna	1,8 kg
Weight antenna with cart	15 kg
Operating temperature range	-20°C to +40°C
Operation time	not less 8 then hours
